

WHO'S LOST A MURDERER?

A Description From Alabama That May Enlighten Somebody.

Does any town or community in this State, or any neighboring State, remember to have lost a murderer in the last six or seven years?

If any there be, perhaps the man may be found down in Limestone County, Alabama, near the town of Carriger.

Read the following letter from an officer of that place, who prefaces his remarks with "Knowing that your paper has many readers, I send you this communication, thinking that it may find its way where information can be given."

PURIFY YOUR BLOOD.

NOW IS THE TIME TO TAKE A GOOD BLOOD PURIFIER.

And Spring Tonic-Try Peruna, and You Will Find It Just the Thing You Need-The Best Spring Medicine Sold.

Of all the seasons of the year spring is the one in which the system is most generally disordered and debilitated, and in most need, therefore, of the aid of some good medicine to at once regulate and strengthen it. The blood of nine persons out of every ten is in a miserable state of impurity at this time, and this is the seat of the whole trouble. When your head aches, when your appetite is poor, when you have that wretched "tired feeling," together with an offensive breath and a frequent tendency to sudden attacks of peculiar dizziness, it simply means that your blood is out of order and needs purifying. It means also that you need a tonic to fortify your weakened system against the debilitating effects of warm weather following so closely upon the bracing air of winter. Don't give way to despondency, therefore, and let your physical troubles prey upon your mind; but get a bottle of Peruna at once and begin taking it. It is peculiarly adapted to meet both the disordered and the exhausted condition of your system. Its success as a blood purifier and tonic is always great and often marvelous. The reason for this is clear. In the first place, it is purely vegetable, and so compounded as to bring out all the virtues of its constituents in the most effective combination. In the second place, it is composed of extracts of crude drugs, such as codon oil, balsam copaiba, cubeba, buchu leaves, calasa bark, collopsina canadensis, corydalis formosa, cologne spirit, etc., all of which are not only official in the highest medicinal value, but are especially recommended for their blood purifying and tonic powers. They enter into the blood, penetrate every drop of it, and seize upon every impurity that lurks in and poisons the life-giving fluid. Then they make themselves felt in giving tone to the various organs of the body, in building up the debilitated structures, in equalizing the circulation, and in lending powerful aid to nature in giving new vitality and fresh vigor to both body and mind. No one who takes Peruna can fail to be benefited by it, but those persons who are confined to shops and to schools, to school rooms and to stores, and who, by their more or less sedentary habits of life, require more than others the aid of medicine in throwing off the impurities of the blood and keeping up the tone of the system, will be especially benefited by Peruna. Read what the people have to say:

S. S. Condy, of Massillon, O., writes: "I have been troubled with General Debility for years. I tried Peruna. It braced me up and gave me the energy of youth."

C. W. Poley, of Hartsuff, Mich., writes that his wife suffered severely with General Debility. Having tried Peruna, he writes: "It is really what it is said to be."

Mr. Amos Pence, of St. Paul, O., says: "I have used Peruna, and my health is better now than it has been for years. Any one doubting its virtues, can correspond with me at St. Paul, O."

David McCollough, of Cumberland, Md., pays tribute to this complaint: "My wife's health was very much broken down, and she took Peruna for weakness and General Debility. She now feels like a new person. I advise all who are suffering to use it."

The General Debility with which these persons suffered being due partly to a vitiated condition of the blood and partly to exhaustion, they needed both a Blood Purifier and a Tonic. Peruna happily combining the two functions, speedily cured them. To keep the Bowels open while using Peruna, Man-a-lin will be found most excellent. For sale by all druggists. \$1 a bottle, 6 for \$5.

Send for Dr. Hartman's valuable book, the "His of Life," sent free to any address by Peruna Medicine Company, Columbus, O.

A BULL AND BEAR TIME.

MERCHANTS' AND COTTON EXCHANGES AND THE ORPHANS.

The Latter Body Challenges for a Game of Football, the Former Moves to Amend by Making it Baseball, and the Decision Will Be Reached Today.

The Cotton Exchange bulls and the Merchants' Exchange bears are thinking of the orphans and their futures just now. Last spring a game of baseball netted some \$400 for the little ones, and it is the intention this spring to offer additional attractions to the charitable and fashionable public so as to get up a bigger purse for them. It is proposed that a game of football, under Oxford rules, be played by the rival clubs of the exchanges, and that a game of tennis be played by the young ladies of the city. The following correspondence has already been had on the subject, and this morning a joint meeting will be held of the committees for purposes of conference, and with a view to settle all questions as to the attractions, time when and place where they will be given the public.

MEMPHIS COTTON EXCHANGE.

MEMPHIS, Tenn., April 8, 1889.

To the Members of the Merchants' Exchange, City:

Dear Sirs—We, the undersigned, on behalf of the members of the Cotton Exchange, do hereby challenge your Exchange to a friendly game of football, for the benefit of the orphans, time and place to be fixed by you. It is also proposed, in addition to our game, that a match game of lawn tennis be played between two of our local clubs, composed of ladies and gentlemen.

Hoping to hear from you at an early date of the acceptance of our challenge, we beg leave to remain, very respectfully,

Thos. H. Allen, Jr., Chm.; Emmet L. Woodson, W. A. Gage, J. M. Richardson, R. F. Patterson, J. R. Goffin, C. F. Parvoworth, H. M. Neely, Sam O. Smith, George Arnold, R. K. Porter, W. Palmer, N. M. Bateson, Wm. Davies, Jr., R. W. Harris.

MEMPHIS MERCHANTS' EXCHANGE.

MEMPHIS, Tenn., April 10, 1889.

Thos. H. Allen, Jr., Chm.; Emmet L. Woodson, W. A. Gage, J. M. Richardson, R. F. Patterson, J. R. Goffin, C. F. Parvoworth, H. M. Neely, Sam O. Smith, George Arnold, R. K. Porter, W. Palmer, N. M. Bateson, Wm. Davies, Jr., R. W. Harris.

Gentlemen—Your communication, in the shape of a challenge to play your exchange game of football, was duly received. In reply thereto we would say (1) that it has been the annual custom of these two commercial bodies to engage in friendly baseball rivalry for the benefit of the orphans' fund; and, while on all former occasions it has been our good fortune to be the successful team, you should not on that account attempt to change the game on us. We think that you should this year, as heretofore, offer yourselves as a sacrifice on the altar of orphans' charity and be again defeated. Of course it is not your fault that you have not the superior team. A long-suffering public does not expect you to win. We therefore cannot but be disappointed that you should at least be willing to try again, although you must know that you haven't a ghost of chance against us. If would, I assure you, be taken as an earnest of your desire to do the right thing. (2) We have no members who understand the game you propose. (3) Baseball, being the national game of America, it should be our duty to encourage that sport rather than that of football.

For these reasons we most respectfully decline to play football, but if you will amend your challenge by striking out the word foot, and inserting the word base, we will heartily accept and promise to keep up our well earned reputation by pounding your pitcher out of the box. Hoping that you will accept the amendment, and again forward the challenge, we are, very respectfully,

S. H. Phillips, Chairman, J. B. Schless, Tom R. Jones, W. F. Johnson, Frank Neillson, W. A. Seale, G. L. Franklin.

A Sad Calamity.

NATHAN F. DIXON

Elected to Be United States Senator From Rhode Island.

PROVIDENCE, R. I., April 10.—In the Assembly at noon today the Legislature began balloting again for United States Senator, and the first three ballots resulted in no choice. The next ballot resulted in the election of Nathan F. Dixon, of Westerly, by the following vote: Dixon 51, Wetmore 41, Arnold 4, Colt 2, Spooner 1.

Total vote 107, necessary to choice 50.

United States Senator-elect Dixon, of Westerly, was born in that town August 28, 1847. He graduated from Brown University in the class of '69 and from the Albany Law School in 1871, and is a practicing lawyer. He was United States District Attorney from 1877 to 1885, and a representative from the Second District in the Forty-eighth Congress to fill a vacancy for a month. He has been a member of the State Senate since May, 1885. His father, Nathan F. Dixon, was a prominent man in the State, representing Rhode Island in the National House, and holding other important offices.

A Dog Kitten a Man.

FINDLEY, O., April 10.—Thomas Borge, a farmer in the southern part of Union Township, was awakened at an early hour yesterday morning by hearing his dog engaged in a struggle with some one who was screaming for help. The farmer, on going out, found the dog tearing at the throat of a tramp, who had evidently sought the porch as a place to rest and had been attacked by the animal. The farmer did not interfere with the dog and the man was soon dead. His body was buried in the field. The farmer's children told the story and the authorities are now investigating the matter.

LOOK TO THE CHILDREN.

Nothing is so necessary to the health of the child as keeping its blood pure. Nature should be assisted in this by using a harmless vegetable remedy like Swift's Specific.

My little niece had white swelling to such an extent that she was confined to the bed for a long time. More than twenty pieces of bone came out of her leg, and the doctors said amputation was the only remedy to save her life. I refused the operation and put her on S. S. S., and she is now up and active and in as good health as any child.

Columbus, Ga., Feb. 11, '89. ANNE GERBING.

My little son, five years old, was afflicted with a disease for which the doctors had no name. The name came off his fingers, and the fingers came off his hands up to the middle joint. For three years he has suffered dreadfully, and has taken quantities of medicine. He is now getting well under treatment of Swift's Specific.

John Druel, Fern, Ind., Jan. 12, 1889.

Last year my little boy John had a breaking out with sores all over his body, which was painful and troublesome. After using other remedies for several months, while the sores grew worse, I was induced to give him Swift's Specific. He began to improve at once, and after taking three bottles the eruption was gone, and the child was altogether healed.

Albany, Ga., Sept. 20, 1888. J. F. COOK.

Rev. L. B. Payne, in charge of the Orphan's Home at Macon, Ga., says he has been using S. S. S. with the children in the institution for nine or ten years with the best results. Many cases of hereditary taint have been entirely cured, and the little ones made sound and hearty.

My little boy broke out with sores and ulcers, the result of the saliva from a calf coming in contact with a red finger. Two ulcers were deep and painful and showed no inclination to heal. I gave him Swift's Specific, and he is now well.

Anders, Ala., Feb. 15, 1890. JOHN T. HEARD.
